

## Track E3

## Model-Based Design for Embedded Systems

## Final Call for Papers

The 10th DATE conference and exhibition is the main European event bringing together designers and design automation users, researchers and vendors, as well as specialists in the hardware and software design, test and manufacturing of electronic circuits and systems. It puts strong emphasis on both ICs/SoCs, reconfigurable hardware and embedded systems, including embedded software.

<http://www.date-conference.com/conference/call4papers.htm>

## TOPIC AREA FOR SUBMISSIONS

(c) 2006 The MathWorks, Inc.

Model-based methods for:

- component-oriented design
- testing
- system verification
- software/system integration and deployment

Domain Specific Modeling Languages, metamodeling

Semantic foundation for composition of domain specific tool chains

## PROGRAM COMMITTEE

**Janos Sztipanovits**

janos.sztipanovits@vanderbilt.edu

**Pieter J. Mosterman**

pieter.mosterman@mathworks.com

Karl-Erik Årzén, Lund University

Holger Giese, University of Paderborn

Jeff Gray, University of Alabama at Birmingham

Tom Henzinger, Ecole Polytechnique Fédérales de Lausanne

Gabor Karsai, Vanderbilt University

Christoph Kirsch, University of Salzburg

Jonathan Sprinkle, University of California, Berkeley

Stavros Tripakis, Cadence Berkeley Labs

## SUBMISSION INSTRUCTIONS

*Submissions should not exceed 6 pages in length for both oral-presentation and interactive-presentation papers, and should be formatted as close as possible to the final format: A4 or letter sheets, double column, single spaced, Times or equivalent font of minimum 10pt (templates are available on the DATE Web site for your convenience). To permit blind review, submissions should not include the author names. Any submission not in line with the above rules will be discarded.*

Submission deadline: September 10, 2006

Notification of acceptance: November 10, 2006

Final version due: December 8, 2006
